A very good course that is easy to follow with all the information that is needed to pass the test. Simplilearn offered me exactly what I was looking for an effective and convenient way to learn for my PRINCE2 certification exams. The online stuff was well structured and their customer service agents were always very quick and helpful to accommodate my requests. The coach was well organized and the questions were answered in context. Even if they were asked outside the topic, the coach patiently associated them when the topic was discussed. His training was well backed up by simple examples, interesting case studies and analogies. I enrolled in the PRINCE2 course from Simplilearn. I really enjoyed the content of the course. This is useful and easy to understand. Their customer support is very good and they have closed our requests in one call. This helps in less hassle for the working class. In general, it is a great experience. The coach was excellent - he was very knowledgeable and he trained very well. The entire team at Simplilearn, did a great job :-). Coach shared his knowledge through PPTs along with the content of the course. The training was good. The training was done well, it was simple and to the point. Thank you. The themes and principles were very well depicted by the coach, using live examples. The coach was excellent. He was able to manage the virtual class, just like a real class. As a newly qualified practitioner of PRINCE2, I really want to thank the team at Simplilearn for their great course material and mentors. I would never have been able to pass without that support. I enrolled at Simplilearn for PRINCE 2 certification. The course was well designed. I really liked the flexible learning model. The coach was also very helpful. I have completed the certification of PRINCE 2 and MSP from Simplilearn. Certification helped me to promote my career from project manager in Kwadvolva to program manager at Infibeam Incorporation Ltd. along with a good hike. I would recommend Simplilearn. I felt at ease with the coach. She was clearly articulate, knowledgeable and patient. It also maintained a good tempo during the session and made it very interactive and interesting. I found the course and learning very interactive, good learning and fun. The coach had very good knowledge of PRINCE2. The training has been awesome and I would like to join another course soon... Thanks. The training was very valuable and was a good experience. The presenter also did a fantastic job. I was able to bring knowledge back to work and apply it to my daily activities and have more confidence in what PRjects In a controlled environment (PRINCE2) requires is a methodology used in project management to improve project management skills. It also helps in getting an effective exit. PRINCE2 is a world-recognized certification for project managers and future Projects. This certification is widely used by the UK government it has recently been used in the private sector as well. PRINCE2 Certification Levels: PRINCE2 IS a different certification level that are: PRINCE2 Foundation PRINCE2 Practitioner PRINCE2 Professional PRINCE2 Agile Where: PRINCE2 Foundation is a basic certification level. An employee/employee working for the Organization can provide companies with their best practices, which will further increase their income and profits. PRINCE2 Practitioner is a certification that enhances the skills needed to manage projects and effectively manage risks. Prince2 Professional Certification is essentially for Prince2 practitioners who want to take the next step and enhance their knowledge of the PRINCE2 methodology. This certification will test the ability of professionals to manage non-complex projects across all threads. However, Prince2 Practitioner certification is a prerequisite for Prince2 Professional certification. Prince2 Agile certification is a new module and is suitable for those who have already received PRINCE2 and need further guidance on the use of agile methods. This certification is suitable for both small and large-scale projects. The PRINCE2 @ exam voucher is PeopleCert's exam. The successful completion of this exam brings you a certificate @ PRINCE2. The PRINCE2® (PProjects IN Controlled Environments) is a widely used project management method that moves you through everything you need to start a successful project. Your second chance at certification, at an affordable Take2 price gives you a second chance at re-enabled of fixed, attractive price. Discover Take2 KEY BENEFITS 1 Equip yourself with highly sought-after certification in Project Management 2 Learn best practices to be able to work effectively as a team member working in the PRINCE2 3 PRINCE2 Foundation is a prerequisite for higher levels of project management certification like PRINCE2 Practices and PRINCE2 Agile® This designation issued by Axelos in the UK. This is the lowest level of the three in the PRINCE2 system. PRINCE2 Foundation PRINCE2 Practitioner PRINCE2 Professional Axelos does not publish the number of people who are PRINCE2 certified. We found sources that mention 1.5 million exams taken since 1996, but the certification practice lasts only 5 years, so the number of active certificates is probably much smaller than that. Unlike other project management certificates, there are no letters after your name after the completion of the PRINCE2 certification, on any of the three levels. Who is it for? Prince2 Foundation certification is an entry-level certification designed for people who want to switch to project management or do not have the time or experience to obtain full Practitioner certification. For example, people who are in a technical role and want to demonstrate competence in project management in the hope of moving to project management. People who run small projects, or part-time. People who want to demonstrate competence in projects, even if they don't manage projects. From Axelos: Axelos: The Fund's qualification is to confirm that the candidate has sufficient knowledge and understanding of the PRINCE2 method to be able to work effectively with or as a member of the project management team working in an environment supporting PRINCE2. Equivalents Other Entry-level Project Management Certificates: Certified Project Management Officer (CAPM) issued by the Institute for Project Management (PMI) International Project Management Officer, Level D (IMPA-D), issued by the International Association of Project Management (IPMA) through member associations in each country. These member associations have quite a bit of freedom, and some countries even change the name of the certification itself. For example, in the UK, the official IPMA-D certification is called APMP, issued by a member organization of the APM. There are no requirements for background education, such as secondary or post-education. You also don't need to take any courses. You can study the manual privately and then take the exam at one of the five exam institutes, or you can take a course in an accredited learning organization and write the exam directly through them. The exam has 75 multiple questions. For more information, check out the Axelos Skills page. Experience requirements No project management experience requirements to pass the PRINCE2 Foundation exam and pass certification. Other PRINCE2 requirements have no other requirements than to pay the exam fee. In this sense, this is a very basic certification. But while this is much easier to do than its counterparts, the relative ease of achieving certification leads to a decline in prestige in the industry. The official textbook Official Textbook is called Management of Successful Projects with PRINCE2, written by Axelos. It is available for 75 pounds from the Axelos website, or from Amazon. Cost In addition to the official textbook there is the cost of writing the exam. You can choose from any of the five exam institutes, but for reference at the time of writing, APMG in the UK was 240 pounds, and Acquios in the United States was \$349. The PRINCE2 Foundation certificate does not expire. Find out more to find out more by surfing the Axelos website and make sure you check out the PRINCE2 Skills page.
